EDUCATION

Virtual University Faisalabad

BSCS (Countinue)

BACHELOR IN COMPUTER SCIENCE

2023 (Countinue)

Current Semester (4)

ABOUTE ME

I am a passionate Full Stack Developer specializing in MERN (MongoDB, Express.js, React.js, Node.js). With a strong foundation in web application development, I thrive on building dynamic, efficient, and scalable solutions. My expertise extends to allowing me to develop seamless, high-performing applications. Constantly eager to learn and adapt, I stay up-to-date with the latest technologies to deliver modern and impactful digital experiences.

EXPERIENCE

MERN Stack Developer
devontix solutions   October-2024 - Present

- Building dynamic front-end applications with React.js, enhancing user interactivity and real-time data handling.
- Managing MongoDB databases, ensuring data integrity, optimized query execution, and seamless integration with web applications.
- Continuously learning and adopting the latest technologies to improve full-stack development practices.

Front-End Developer
GeniusMindZone   March-2024 - July-2024

- Assisted in the development and maintenance of web applications using React.js.
- Collaborated with senior developers to implement new features and fix bugs.
- Gained hands-on experience in creating and managing user interfaces using React.
- Ensured the applications were visually appealing and user-friendly.
- Learned and applied best practices for code optimization and performance enhancement in React.

Junior Developer
DevStrings   Mar-2023 - Febraury-2024

- (MongoDB, Express.js, React.js, Node.js) Stack, ensuring seamless functionality and user experience.
- Designed and implemented RESTful APIs for effective
- communication between the front-end and back-end.
- Managed MongoDB databases efficiently, ensuring data integrity, performance optimization, and proper indexing for faster query execution
